Electrical adapter								

## PACKING TIPS

1. This is a list of suggested items. Select items at your own discretion and don't forget your passport.
2. Khaki is a great clothing color on safari. It doesn't: show dust; attract bugs; or startle animals.
3. Footwear: a pair of comfortable walking shoes will work for all situations.
4. Pack light! Bring half as much clothing and twice as much money - old travel adage.
5. There will be opportunities to do laundry (anywhere we stay multiple nights).
